

Little Charmers - Free Mylar Snowman 390

The colors listed here are only suggestions - feel free to use the colors that you prefer. We recommend Opal Mylar for these designs.

The first 2 colors in the graphic design create an outline for you to cover with Mylar, and then tacks the Mylar down for you. We used color #3 (white) for these so that we didn't need to change thread colors too often.

For info on using Mylar and where to buy it, check this link: <https://www.charmingstation.com/MylarDesigns.asp>

Special Note: This snowman design has a lot of stitches because of the Easter Eggs. You may want to use a little heavier stabilizer for this design.

- Color #1 White for outlines
...Cover this outline with Opal Mylar
- Color #2 White (even though it says gray) for tack down
- Color #3 White for snowman
- Color #4 Orange for Nose
- Color #5 Green for Hat and scarf
- Color #6 Lt. Gray for glass
- Color #7 Bright blue for straw
- Color #8 Yellow for sun and lemonade
...remove the Mylar above the snowman where the snowflakes will go.
- Color #9 Lt. Blue for snowflakes
- Color #10 Black for outlining and face
...remove excess Mylar by tearing back toward the stitching

These text designs are done with a satin stitch so you may want to use a medium weight stabilizer to prevent puckering.

Each line will stop at the end and tie off stitches. The machine will move to the beginning of the next line and wait for you to start up again. This allows you to change colors if you want, or to continue along with the same color.

You have our permission to use these designs on projects for yourself, as gifts or for items for sale. Please give credit to www.charmingstation.com where possible. You do not have the right to give the designs to others - please ask them to go to our website and download them directly.
